

ACHESON BUILDERS

Whole House Remodel at an Historical Home, Old West Side, Ann Arbor

4

Jennifer Patselas Photography

442 2nd Street, Ann Arbor

This most fascinating older home embodied several eras of style. A Greek Revival settlement-era original combined with a mid 19th century practical-but-poorly-built addition, a showy Victorian-era addition, and a 1970's update on the cheap.

While possessing lots of charm, the home was awkward and limiting to live in. New renovation designs from two different design-builders hadn't met the owner's goals, so the Acheson design team was called in.

With creative problem solving, attentive listening, and abundant experience, the Acheson team was able to meet both the homeowner's goals and the Historic District requirements. Relocating/improving the main stairs, turned out to be one of the keys in reconfiguring this home to meet a growing family's needs. Come see the spectacular outcome!

- New rear addition encompasses kitchen, dining and family rooms
- Lots of custom cabinetry and custom built-ins
- Elegant custom staircase near foyer
- Interesting ceiling lines, custom mouldings add great charm
- Circular stairway to lower level; wall displays some original 1840s stonework

About Acheson Builders
